

New York QSO Party

Available Contest Logging Software

The following software provides support for the New York QSO Party. Note that we have specific instructions for N1MM+ elsewhere on the site, since that is by far the most popular NYQP logging software historically.

Program	Operating System	Notes	Cost*	Web Info
N1MM Logger	Windows	Setup instructions on NYQP.org	Free	www.n1mm.com
Writelog	Windows		Purchase required.	www.writelog.com
N3FJP Logger	Windows		Registration fees per contest.	www.n3fjp.com
Skookum Logger	macOS		Free	www.k1gq.net/SkookumLogger
TR4W	Windows		Free	www.tr4w.net
TR Linux	Linux		Free	www.kkn.net/trlinux/
DXLog	Windows		Free	www.dxlog.net
CQ/x	Windows	GPS enabled for mobile operation	Free	www.no5w.com/CQxDownloads.php
SD by EI5DI	Windows		Free	www.ei5di.com
GenLog	Windows		Free	www.gsl.net/w3km/

* As of September 25, 2022

If you have setup tips with any of the software listed above, please inform the NYQP organizers at info@nyqp.org so those items may be noted and evaluated regarding inclusion in this list.

NOTE: This is *not* an offer to remedy any issues—we would like to be aware of any setup tips you can provide. Please take up any software functionality issues (bugs, feature requests) with your respective software vendor.
